A Student's Interviewing Adventure

The following is an actual email received from an Interview Mastery customer.

------ Original Message ----------
Subject: My greatest gratitude to you and your interviewing mastery techniques...
Date: September, 2004
From Travis - Media Arts student, Tulane University
To: Michael Neece - CEO, Interview Mastery

Dear Mr. Neece:

I just wanted to extend my deepest gratitude on your hard work on helping job seekers prepare for the perfect interview. After spending time reviewing your techniques, I am glad to announce that I landed the job I was going for today. I was able to master the interviewing process and land the job I was seeking.

The exact questions I was prepped for on this site were asked in the interview. Also, everything from posture, dress code, etc., allowed me to land this job.

I cannot stress how much of a help this was to me. I really impressed the interviewers by preparing like you instructed. From reviewing their code of ethics, mission statement, and philosophy, I did my "homework" which allowed me to learn about the company prior to the interviews.

Thank you so much. I could not have done it without you.

Sincerely,
Travis, Student, Tulane University
